

Applied Clinical Data Analytics Summer School June 11th-13th 2025

Transform your approach to clinical data analysis this summer! Our innovative Summer School in Applied Clinical Data Analytics returns June 11th -13th, 2025, offering an immersive three-day experience that bridges theory and practical application.

1. Unlock the Power of Data:

Delve into the innovative spiral curriculum, crafted exclusively for healthcare professionals, designed to master the art of clinical data analysis.

2. Learn from the Experts:

Engage and network with domain experts in Clinical Data Analytics from the University of Galway, College of Medicine Nursing and Health Science (CMNHS) community.

3. Dive into Real-World Applications:

Experience a dynamic active learning environment, tackling real-world examples including data sets from clinical trials and large prospective cohorts.

4. Cultivate Inter-Professional Skills:

Foster individual, collective, and inter-professional data proficiency, tailored for the demands of modern healthcare.
